

## WOOD EFFECT COLLECTIONS

Long tiles by their nature cannot be produced completely flat and have a physical property which can form them into a convex or concave shape. In order to create a level finish on floors using wood effect and larger format tiles, we recommend the use of a quality Levelling System as seen on page 148 of this catalogue. With such a system joints are staggered to a maximum of 30% and held in place using the crossheads and wedges until the adhesive has cured, thus producing the perfect lippage-free finish.

Line Vintage Mix

# Line Collection

Material: Porcelain

Use: Floor

Size: 80x400mm

Shade Variation: V2

Line is a new collection of small format woods which follows our approach of creating authentic wood alternatives. We believe the Line series is an improvement on everything that has so far been done in wood floor tiles.

The colours, the textures, the format and the quality of manufacture are all combined to create a wonderful tile that will decorate homes and commercial premises for many years to come. It is a glazed porcelain tile in 80x400mm with a natural edge.

Dallas Collection

# Dallas Collection

Material: Ceramic

Use: Floor

Size: 150x600mm

Shade Variation: V3

Dallas is a collection of 150x600mm Ceramic wood effect tiles that comes in four colour options. These are ideal for bathrooms and floor areas around the home. Each colour has a strong pattern that reflects the natural shading and graining of wood. These tiles are suitable for fixing in brick or Herringbone formation.

Oakwood Collection

# Oakwood Collection

Material: Porcelain

Use: Floor

Size: 150x750mm

Shade Variation: V2

Oakwood is a collection of 150x750mm glazed porcelain wood effect tiles. Each of the three colour options has been selected to compliment modern design styles and could be used as a feature wall or as floor tiles in the bathroom or any other room in the home. The carefully selected colours are easy to introduce to many design storyboards and should compliment many fabrics and finishes. Oakwood is suitable for fitting in brick or Herringbone formation.

Forester Collection

# Forester Collection

Material: Ceramic

Use: Floor

Size: 200x600mm

Shade Variation: V3

Forester is a collection of two colours wood effect ceramic tiles in 200x600mm. The range has mild variation and a very real vein. The overall effect is a high quality wood effect floor with little knotting and a youthful vibe. The tight styling is complimented by the rectified edge, that allows the tiles to be fitted close together and reducing the grout width.

From €17.95 Yd

1. Forester Greige Wall R9

Barrow Collection

# Barrow Collection

Material: Porcelain

Use: Floor

Size: 225x900mm

Shade Variation: V2

The Barrow collection is our newest collection of large format wood effect tiles. At 225x900mm, they are long enough to allow the design an expanse in which to reveal their pattern slowly. They are not cluttered with knots or heavy variation, but rather focus on the calm colours and subtle shading to create their own style. The result is a stunning floor that is easy on the eye and will blend with almost any interior design scheme.

Barrow comes in four colours and is a non rectified porcelain tile. Barrow has an R9 slip rating so it can be used in commercial situations.

Obama Collection

# Obama Collection

Material: Porcelain

Use: Floor

Size: 200x1200mm

Shade Variation: V2

For those looking for an extra long plank wooden floor, we have Obama. Long thin planks 200x1200 of rectified porcelain tiles in three very contemporary colours, mean that Obama can be used in large and small areas alike. The effect is modern and sleek. Obama is such an on trend style that it could equally be used as a wall decoration. Fit it with a narrow 1mm joint for maximum effect.

Thanks to the latest glaze technology, Obama is smooth to touch and yet still achieves an R11 slip rating, so it can be used in wet and dry areas, inside and out.

From €25.95 Yd

1. Obama Wood Taupe Rect GPor 1200x20 R11
